Portfolio: kaviishwarryask.vercel.app | LeetCode: leetcode.com/u/s9hXtuAA2E | Erode, Tamil Nadu (open to relocation)

SUMMARY

B.E. CSE (Internet of Things) student (graduating 2027) who builds mobile and cloud projects. I built a cross-platform ride-sharing app with React Native and Firebase and hosted a website on Amazon S3. Good grounding in Java, Python, SQL, OOP and DBMS, plus hands-on hardware experience from two internships.

EDUCATION

Nandha Engineering College, Erode, Tamil Nadu

2023 to 2027

B.E. in Computer Science and Engineering (Internet of Things)

CGPA: 8.3/10

EXPERIENCE

Elite Systems and Controls

Dec 2025 to Jan 2026

Intern, PCB and Embedded Design

- Designed circuit schematics and **8 PCB layouts** in the **KiCad** PCB Editor.
- Assisted with a 3-stage PCB design workflow covering schematic capture, layout optimisation and design validation.

Nandha InfoTech

Jun 2025 to Jul 2025

Trainee, IoT Systems

- Built a **smart home automation system** in **Embedded C/C++** with an **Arduino**, **ESP8266** Wi-Fi module and **DHT11** sensor.
- Linked it to the **Blynk IoT platform** for remote temperature and humidity control; tested and documented it.

PROJECTS

RideBoard, Ride-Sharing Mobile App

github.com/kaviish123/RideBoardApp

React Native, Expo, Firebase Authentication, Cloud Firestore

- Built a cross-platform ride-sharing app for **iOS and Android** with **React Native** and **Expo**, with **Firebase Authentication** for sign-in.
- Wrote the features to post, browse, edit and delete ride listings, with real-time storage in **Cloud Firestore**.
- Kept the UI modular and responsive, used **Git/GitHub** for version control and made Android builds with Expo EAS Build.

AWS Static Website Hosting

github.com/kaviish123/AWS-Static-Website

AWS, Amazon S3

- Hosted a static website (HTML, CSS, JavaScript) on **Amazon S3**, set up bucket permissions and public access, and tested it through the S3 endpoint.

RESEARCH

Sales Forecasting Using Customer Segments and Holiday Effects

Unpublished manuscript

First author, with Karthik V, Keerthana K and Maheswari S (faculty guide), Nandha Engineering College

- Used **LightGBM** ensemble learning on real retail sales data to study how customer segments and holidays affect sales.

TECHNICAL SKILLS

Programming & Databases: C/C++, Java, Python, SQL, MySQL

Cloud: AWS (S3, EC2, IAM, static website hosting)

Core Computer Science: DBMS, Operating Systems, Computer Networks, OOP

Tools & Platforms: Git, GitHub, VS Code, AutoCAD, Excel

Embedded Systems & IoT: Arduino, ESP8266, DHT11 sensors, Blynk IoT Platform, KiCad (schematic and PCB design)

TRAINING

Infosys Springboard, Pragati: Path to Future, Cohort 3

Dec 2024 to Mar 2025

11-week program: technical coursework plus on-campus soft-skills training

CERTIFICATIONS

- AWS Cloud Practitioner Essentials, AWS Training and Certification (2025)
- Cloud Computing, NPTEL, IIT Kharagpur, 12-week course (2024)
- Security Engineering for the IoT, Infosys Springboard (2025)
- Introduction to IoT and Digital Transformation, Cisco Networking Academy (2025)
- Java Programming for Beginners, Simplilearn SkillUp (2026)

ACHIEVEMENTS & EXTRACURRICULAR

- 2nd Runner-up, Language Geek** (technical event), SAMHITA '24 national symposium, MIT, Anna University, Chennai (Mar 2024)
- Exhibited a project, **Live Portfolio Website**, at the Project Expo, Innovation Day '24, Nandha Engineering College (Feb 2024)
- Solved **300+ problems on LeetCode** in Java covering data structures and algorithms, with 50 Days and 100 Days badges (2026)
- Took part in Project Presentation and Blind Coding at GUSTO 2024, Government College of Engineering, Erode (Apr 2024)
- Workshops:** AI and Python (Mechanica, IIT Madras Research Park), Generative AI, Data Science (MIT), IoT Sensors
